

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

in regard to the application of: Ari DEROWE et al.

Serial No : 09/701,531

Group Art Unit: 3731

Filed : November 28, 2000

Examiner: HO, U. T.

For : METHODS AND DEVICES FOR VASCULAR SURGERY

EIGHTH SUPPLEMENTARY INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants respectfully direct the attention of the Examiner to additional art cited with respect to the present application.

The Examiner is respectfully requested to review and consider this art, in accordance with MPEP 2001.06, MPEP 1893.03(e) and MPEP 1893.03(g) and to indicate in the next office action that he has considered this art. Additionally, the Examiner is respectfully requested to cite those prior art publications mentioned in this application which the Examiner considers to be material or relevant to the present claims.

Further, in order to comply with discretionary regulations 37 CFR §1.97 and §1.98, attached is an Equivalent to Form PTO-1449 listing the cited art. Also attached are copies¹ of the art. This art contains information which the Examiner may consider to be important in deciding whether to allow the present application to issue as a patent.

Applicants wish to point out that item 2 was cited on the Written Opinion, dated January 14, 2004, of PCT Application No. PCT/IL02/00790, a copy of which is attached along with copy of this art.

Applicants further wish to point out that items 7, 13, and 14 were cited on the International Search Report, dated February 3, 2004, of PCT Application No.

¹ To the extent that a document is listed and no copy of same is attached, then such document is not at the present time available to the undersigned or is available in the national stage file. If a listed document is not in the English language and an English translation is readily available, such translation is also attached; if translation is not attached, it is not readily available to the undersigned. If a foreign language patent document is cited, and an English language equivalent is known to the undersigned, then such an equivalent patent is also cited on the attached form along with the corresponding foreign language patent and a connecting arrow indicated therebetween; if no such English language equivalent is cited then none is known to the undersigned.

RECEIVED
MAY 11 2004
TECHNOLOGY CENTER 3709

PCT/IL03/00769, a copy of which is also attached along with copies of this art.

Additionally, items 8, 11, and 12 were cited on the International Search Report, dated February 3, 2004, of PCT Application No. PCT/IL03/00774, a copy of which is also attached along with copies of this art. The other item mentioned on this Search Report was already cited in the present application (i.e. U.S. Patent No. 5,250,058 was cited in an earlier Information Disclosure Statement.)

Moreover, items 1, 3-5, and 9 were cited on the International Search Report, dated February 11, 2004, of PCT Application No. PCT/IL03/00771, a copy of which is also attached along with copies of this art.

Items 6 and 10 were cited on the Notice of Allowance, dated January 28, 2004, of U.S. Application No. 10/221,982. Copies of these items are attached hereto. The other items mentioned on this Notice of Allowance were already cited in the present application (i.e. U.S. Patent No. 5,275,622, U.S. Patent No. 5,957,973, and U.S. Patent No. 6,004,330 were cited in an earlier Information Disclosure Statement.)

In accordance with MPEP Section 609 it is requested that each document cited [including any mentioned in Applicants' specification which is not repeated on the attached (or prior) PTO-1449 form(s) or equivalent(s)] be given thorough consideration and be cited of record in the prosecution history of the present application by initialing on the PTO-1449 form or its equivalent, so that it will appear on the face of the patent issuing on the present application, even if the Examiner does not consider it sufficiently pertinent to use in a rejection, or otherwise does not believe that the guidelines for citation have been fully complied with.

The present Information Disclosure Statement is being submitted in compliance with 37 CFR §1.56 as an Examiner might consider any cited document important in deciding whether to allow the application to issue as a patent, but the citation of each document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 CFR §1.104(a), and in the course of such search will review for relevance every document cited on the attached form.

Early and favorable consideration is earnestly solicited.

Respectfully submitted,
Ari DEROWE et al.
